

FODDER

SILAGE SEPARATION TECHNOLOGY

FINES

Rethink Goldilocks - Enhance Fresh Cow Start-Ups

- **FODDer** is more consistent than straw
 - Reduced risk of importing mycotoxins
- **FODDer** is more palatable
 - Increased dry matter intake
- **FODDer** will reduce sorting
 - Perfect length of cut
- **FODDer** will decrease metabolic disorders

Why haven't we been doing this for years?

- **Increase performance of the animals**
 - Higher intakes
 - Smoother transitions
 - More milk
- **Decrease feed costs**
 - Savings range from **\$150-200/cow/year**
- **Simpler to manage**
 - One harvest
 - One pile
 - No straw

Precision Feeding Program

THE FINES WILL PROVIDE

- Sort less
- Eat faster
- Eat more
- Milk more
- Maintain more consistent body condition
- Allows for higher forage in the ration
